DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The application has been amended as follows:

Cancel claim 10-12. These claims are withdrawn from consideration due to the restriction/election requirement (see Response to Election/Restriction Requirement filed on 10/10/02).
3. This office acknowledges receipt of the following item from the Applicant:

Papers submitted under 35 U.S.C. 119(a)-(d) have been placed of record in the file.
4. Claims 1-16 are presented for examination.
5. Claims 1-3, 5-6 and 8-9 are canceled.
6. Claims 4, 7, 13-16 are pending.
7. Claims 4, 7, and 13-16 are allowed.

REASONS FOR ALLOWANCE

8. The following is an examiner's statement of reasons for allowance:

Claims 4, 7, and 13-16 are considered allowable since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. The prior art does not teach the claimed invention having memory device having memory cell array divided into blocks respectively corresponding to input/output terminals such that only one of the blocks corresponds to a given one of the input/output terminals, and each of the blocks is divided into pages, wherein data of the memory cell array are erased by one unit of erasure, wherein more than one but not all of said blocks are put together to form the unit of erasure, so that all the pages included in said blocks which are put together are erased at once.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Saito et al (6532181), Honda et al (6512693), Nijima et al (5734816) and Ohuchi et al (5831903) discloses memory device having plurality of memory arrays divided into plurality of blocks having bulk or unit of erasure.
